Edmarc 25th Annual Charity Golf Classic

Edmarc provides family-centered care for children facing life-threatening illness. We provide in-home care for kids, allowing them and their families more time together. Founded in 1978, Edmarc provides nursing care, psychosocial support, volunteer services, and events for the entire family. For 25 years, The Edmarc Charity Golf Classic has helped support this crucial cause so that families never face the burden of a bill for the services received.

Did you know Edmarc provides care for illnesses in addition to cancer?

While Edmarc cares for many children with cancer, we also provide support for kids with other life-threatening illnesses such as mitochondrial disease, chromosomal abnormalities, and leukodystrophy to name a few.

Did you know Edmarc provides sibling support?

When a child is sick, the whole family is affected. This is why Edmarc social workers are there to work with the siblings, providing emotional support and help develop coping tools.

Did you know Edmarc provides bereavement support for parents?

Our bereavement program hosts a monthly Moms' and Dads' Grief Group for bereaved parents. This offers them a chance to share their grief with other bereaved parents and find unique comfort and support.

Did you know Edmarc has a Perinatal Program for expecting parents?

When a child is diagnosed with a life-threatening illness during pregnancy, Edmarc social workers will provide support to the parents by accompanying them on doctor visits, clarifying information, and helping them with whatever the outcome may be.

Did you know some Edmarc kids become stable discharges?

Many of our kids become stable or see a remission in their disease, qualifying them for discharge from our program. These families are still invited to many of our family events and can also receive Edmarc services again should the need arise.
